HOPE helps

We understand the struggle...

HOPE is a nonprofit organization started on September 28, 2008. HOPE was established to provide support for parents of children with disabilities.

HOPE is a concept that came alive as a result of experiences felt by parents of a child with a disability.

The founders of HOPE recognized the various struggles parents go through in keeping their relationship strong in the midst of fighting for the needs of your child

A sigh of relief is displayed when the child finally receives supportive services that aid in their growth and future independence

The question becomes, what about the parents? How can we as parents support our children, maintain our households and embrace our relationships?

How can I access HOPE funds?

- Fill out an application
- Must be a parent of a child with a disability.
- Must have a financial need
- Will need to speak with someone from the HOPE viewing committee
